

# Global Water Market 2011

---

## Publication information

---

### Foreword

---

### Executive summary

---

### Acknowledgements

---

### 1. Introduction

---

### 2. The global water market

---

### 3. Infrastructure and technology

---

### 4. Water scarcity, desalination and reuse

---

### 5. Investing in water

---

### 6. The outlook for private water

---

### 7. Water regulation in the EU

---

## East Asia and Pacific

---

### 8. Australia

---

#### 8.1 General indicators

---

#### 8.2 Introduction

---

#### 8.3 Overview of challenges

---

#### 8.4 Water sector organization and structure

---

##### 8.4.1 Government ministries and agencies

---

##### 8.4.2 Companies

---

#### 8.5 Supply and demand details

---

##### 8.5.1 Water supply

---

##### 8.5.2 Water demand

---

#### 8.6 Municipal water and wastewater infrastructure

---

##### 8.6.1 Key performance indicators: Water

---

##### 8.6.2 Key performance indicators: Wastewater

---

##### 8.6.3 Water treatment plants

---

##### 8.6.4 Desalination

---

##### 8.6.5 Wastewater treatment plants

---

##### 8.6.6 Water reuse

---

#### 8.7 Water in industry

---

#### 8.8 Water finance

---

##### 8.8.1 Tariffs

---

##### 8.8.2 Operating expenditure

---

---

8.8.3 Capital expenditure

---

8.9 Government's water strategy

---

8.10 Private sector participation

---

8.11 Current and future projects

---

8.12 Market forecast

---

## **9. China**

---

9.1 General indicators

---

9.2 Introduction

---

9.3 Overview of challenges

---

9.4 Water sector organization and structure

---

9.4.1 Government ministries and agencies

---

9.4.2 Companies

---

9.5 Supply and demand details

---

9.5.1 Water supply

---

9.5.2 Water demand

---

9.6 Municipal water and wastewater infrastructure

---

9.6.1 Key performance indicators: Water

---

9.6.2 Key performance indicators: Wastewater

---

9.6.3 Water treatment plants

---

9.6.4 Desalination

---

9.6.5 Wastewater treatment plants

---

9.6.6 Water reuse

---

9.7 Water in industry

---

9.8 Water finance

---

9.8.1 Tariffs

---

9.8.2 Operating expenditure

---

9.8.3 Capital expenditure

---

9.9 Government's water strategy

---

9.10 Private sector participation

---

9.11 Current and future projects

---

9.12 Market forecast

---

## **10. Indonesia**

---

10.1 General indicators

---

10.2 Introduction

---

10.3 Overview of challenges

---

10.4 Water sector organization and structure

---

10.4.1 Government ministries and agencies

---

10.4.2 Companies

---

10.5 Supply and demand details

---

10.5.1 Water supply

---

10.5.2 Water demand

---

10.6 Municipal water and wastewater infrastructure

---

- 10.6.1 Key performance indicators: Water
- 10.6.2 Key performance indicators: Wastewater
- 10.6.3 Water treatment plants
- 10.6.4 Desalination
- 10.6.5 Wastewater treatment plants
- 10.6.6 Water reuse
- 10.7 Water in industry
- 10.8 Water finance
  - 10.8.1 Tariffs
  - 10.8.2 Operating expenditure
  - 10.8.3 Capital expenditure
- 10.9 Government's water strategy
- 10.10 Private sector participation
- 10.11 Current and future projects
- 10.12 Market forecast

**11. Japan**

- 11.1 General indicators
- 11.2 Introduction
- 11.3 Overview of challenges
- 11.4 Water sector organization and structure
  - 11.4.1 Government ministries and agencies
  - 11.4.2 Companies
- 11.5 Supply and demand details
  - 11.5.1 Water supply
  - 11.5.2 Water demand
- 11.6 Municipal water and wastewater infrastructure
  - 11.6.1 Key performance indicators: Water
  - 11.6.2 Key performance indicators: Wastewater
  - 11.6.3 Water treatment plants
  - 11.6.4 Desalination
  - 11.6.5 Wastewater treatment plants
  - 11.6.6 Water reuse
- 11.7 Water in industry
- 11.8 Water finance
  - 11.8.1 Tariffs
  - 11.8.2 Operating expenditure
  - 11.8.3 Capital expenditure
- 11.9 Government's water strategy
- 11.10 Private sector participation
- 11.11 Current and future projects
- 11.12 Market forecast

---

## **12. Korea, Republic of**

---

12.1 General indicators

---

12.2 Introduction

---

12.3 Overview of challenges

---

12.4 Water sector organization and structure

---

12.4.1 Government ministries and agencies

---

12.4.2 Companies

---

12.5 Supply and demand details

---

12.5.1 Water supply

---

12.5.2 Water demand

---

12.6 Municipal water and wastewater infrastructure

---

12.6.1 Key performance indicators: Water

---

12.6.2 Key performance indicators: Wastewater

---

12.6.3 Water treatment plants

---

12.6.4 Desalination

---

12.6.5 Wastewater treatment plants

---

12.6.6 Water reuse

---

12.7 Water in industry

---

12.8 Water finance

---

12.8.1 Tariffs

---

12.8.2 Operating expenditure

---

12.8.3 Capital expenditure

---

12.9 Government's water strategy

---

12.10 Private sector participation

---

12.11 Current and future projects

---

12.12 Market forecast

---

## **13. Malaysia**

---

13.1 General indicators

---

13.2 Introduction

---

13.3 Overview of challenges

---

13.4 Water sector organization and structure

---

13.4.1 Government ministries and agencies

---

13.4.2 Companies

---

13.5 Supply and demand details

---

13.5.1 Water supply

---

13.5.2 Water demand

---

13.6 Municipal water and wastewater infrastructure

---

13.6.1 Key performance indicators: Water

---

13.6.2 Key performance indicators: Wastewater

---

13.6.3 Water treatment plants

---

13.6.4 Desalination

---

13.6.5 Wastewater treatment plants

---

13.6.6 Water reuse

---

13.7 Water in industry

13.8 Water finance

13.8.1 Tariffs

13.8.2 Operating expenditure

13.8.3 Capital expenditure

13.9 Government's water strategy

13.10 Private sector participation

13.11 Current and future projects

13.12 Market forecast

## **14. New Zealand**

14.1 General indicators

14.2 Introduction

14.3 Overview of challenges

14.4 Water sector organization and structure

14.4.1 Government ministries and agencies

14.4.2 Companies

14.5 Supply and demand details

14.5.1 Water supply

14.5.2 Water demand

14.6 Municipal water and wastewater infrastructure

14.6.1 Key performance indicators: Water

14.6.2 Key performance indicators: Wastewater

14.6.3 Water treatment plants

14.6.4 Desalination

14.6.5 Wastewater treatment plants

14.6.6 Water reuse

14.7 Water in industry

14.8 Water finance

14.8.1 Tariffs

14.8.2 Operating expenditure

14.8.3 Capital expenditure

14.9 Government's water strategy

14.10 Private sector participation

14.11 Current and future projects

14.12 Market forecast

## **15. Singapore**

15.1 General indicators

15.2 Introduction

15.3 Overview of challenges

15.4 Water sector organization and structure

15.4.1 Government ministries and agencies

15.4.2 Companies

- 
- 15.5 Supply and demand details
    - 15.5.1 Water supply
    - 15.5.2 Water demand
  - 15.6 Municipal water and wastewater infrastructure
    - 15.6.1 Key performance indicators: Water
    - 15.6.2 Key performance indicators: Wastewater
    - 15.6.3 Water treatment plants
    - 15.6.4 Desalination
    - 15.6.5 Wastewater treatment plants
    - 15.6.6 Water reuse
  - 15.7 Water in industry
  - 15.8 Water finance
    - 15.8.1 Tariffs
    - 15.8.2 Operating expenditure
    - 15.8.3 Capital expenditure
  - 15.9 Government's water strategy
  - 15.10 Private sector participation
  - 15.11 Current and future projects
  - 15.12 Market forecast
- 

## **16. Taiwan, China**

---

- 16.1 General indicators
  - 16.2 Introduction
  - 16.3 Overview of challenges
  - 16.4 Water sector organization and structure
    - 16.4.1 Government ministries and agencies
    - 16.4.2 Companies
  - 16.5 Supply and demand details
    - 16.5.1 Water supply
    - 16.5.2 Water demand
  - 16.6 Municipal water and wastewater infrastructure
    - 16.6.1 Key performance indicators: Water
    - 16.6.2 Key performance indicators: Wastewater
    - 16.6.3 Water treatment plants
    - 16.6.4 Desalination
    - 16.6.5 Wastewater treatment plants
    - 16.6.6 Water reuse
  - 16.7 Water in industry
  - 16.8 Water finance
    - 16.8.1 Tariffs
    - 16.8.2 Operating expenditure
    - 16.8.3 Capital expenditure
  - 16.9 Government's water strategy
  - 16.10 Private sector participation
-

16.11 Current and future projects

16.12 Market forecast

---

## **17. Thailand**

17.1 General indicators

17.2 Introduction

17.3 Overview of challenges

17.4 Water sector organization and structure

17.4.1 Government ministries and agencies

17.4.2 Companies

17.5 Supply and demand details

17.5.1 Water supply

17.5.2 Water demand

17.6 Municipal water and wastewater infrastructure

17.6.1 Key performance indicators: Water

17.6.2 Key performance indicators: Wastewater

17.6.3 Water treatment plants

17.6.4 Desalination

17.6.5 Wastewater treatment plants

17.6.6 Water reuse

17.7 Water in industry

17.8 Water finance

17.8.1 Tariffs

17.8.2 Operating expenditure

17.8.3 Capital expenditure

17.9 Government's water strategy

17.10 Private sector participation

17.11 Current and future projects

17.12 Market forecast

---

## **Eastern Europe / Central Asia**

### **18. Belarus**

18.1 General indicators

18.2 Introduction

18.3 Overview of challenges

18.4 Water sector organization and structure

18.4.1 Government ministries and agencies

18.4.2 Companies

18.5 Supply and demand details

18.5.1 Water supply

18.5.2 Water demand

18.6 Municipal water and wastewater infrastructure

18.6.1 Key performance indicators: Water

18.6.2 Key performance indicators: Wastewater

---

---

18.6.3 Water treatment plants

18.6.4 Desalination

18.6.5 Wastewater treatment plants

18.6.6 Water reuse

18.7 Water in industry

18.8 Water finance

18.8.1 Tariffs

18.8.2 Operating expenditure

18.8.3 Capital expenditure

18.9 Government's water strategy

18.10 Private sector participation

18.11 Current and future projects

18.12 Market forecast

---

## **19. Croatia**

19.1 General indicators

19.2 Introduction

19.3 Overview of challenges

19.4 Water sector organization and structure

19.4.1 Government ministries and agencies

19.4.2 Companies

19.5 Supply and demand details

19.5.1 Water supply

19.5.2 Water demand

19.6 Municipal water and wastewater infrastructure

19.6.1 Key performance indicators: Water

19.6.2 Key performance indicators: Wastewater

19.6.3 Water treatment plants

19.6.4 Desalination

19.6.5 Wastewater treatment plants

19.6.6 Water reuse

19.7 Water in industry

19.8 Water finance

19.8.1 Tariffs

19.8.2 Operating expenditure

19.8.3 Capital expenditure

19.9 Government's water strategy

19.10 Private sector participation

19.11 Current and future projects

19.12 Market forecast

---

## **20. Czech Republic**

20.1 General indicators

20.2 Introduction

---

20.3 Overview of challenges
20.4 Water sector organization and structure
20.4.1 Government ministries and agencies
20.4.2 Companies
20.5 Supply and demand details
20.5.1 Water supply
20.5.2 Water demand
20.6 Municipal water and wastewater infrastructure
20.6.1 Key performance indicators: Water
20.6.2 Key performance indicators: Wastewater
20.6.3 Water treatment plants
20.6.4 Desalination
20.6.5 Wastewater treatment plants
20.6.6 Water reuse
20.7 Water in industry
20.8 Water finance
20.8.1 Tariffs
20.8.2 Operating expenditure
20.8.3 Capital expenditure
20.9 Government's water strategy
20.10 Private sector participation
20.11 Current and future projects
20.12 Market forecast
<b>21. Hungary</b>
21.1 General indicators
21.2 Introduction
21.3 Overview of challenges
21.4 Water sector organization and structure
21.4.1 Government ministries and agencies
21.4.2 Companies
21.5 Supply and demand details
21.5.1 Water supply
21.5.2 Water demand
21.6 Municipal water and wastewater infrastructure
21.6.1 Key performance indicators: Water
21.6.2 Key performance indicators: Wastewater
21.6.3 Water treatment plants
21.6.4 Desalination
21.6.5 Wastewater treatment plants
21.6.6 Water reuse
21.7 Water in industry
21.8 Water finance
21.8.1 Tariffs

---

21.8.2 Operating expenditure

21.8.3 Capital expenditure

21.9 Government's water strategy

21.10 Private sector participation

21.11 Current and future projects

21.12 Market forecast

## **22. Kazakhstan**

22.1 General indicators

22.2 Introduction

22.3 Overview of challenges

22.4 Water sector organization and structure

22.4.1 Government ministries and agencies

22.4.2 Companies

22.5 Supply and demand details

22.5.1 Water supply

22.5.2 Water demand

22.6 Municipal water and wastewater infrastructure

22.6.1 Key performance indicators: Water

22.6.2 Key performance indicators: Wastewater

22.6.3 Water treatment plants

22.6.4 Desalination

22.6.5 Wastewater treatment plants

22.6.6 Water reuse

22.7 Water in industry

22.8 Water finance

22.8.1 Tariffs

22.8.2 Operating expenditure

22.8.3 Capital expenditure

22.9 Government's water strategy

22.10 Private sector participation

22.11 Current and future projects

22.12 Market forecast

## **23. Poland**

23.1 General indicators

23.2 Introduction

23.3 Overview of challenges

23.4 Water sector organization and structure

23.4.1 Government ministries and agencies

23.4.2 Companies

23.5 Supply and demand details

23.5.1 Water supply

23.5.2 Water demand

23.6 Municipal water and wastewater infrastructure

23.6.1 Key performance indicators: Water

23.6.2 Key performance indicators: Wastewater

23.6.3 Water treatment plants

23.6.4 Desalination

23.6.5 Wastewater treatment plants

23.6.6 Water reuse

23.7 Water in industry

23.8 Water finance

23.8.1 Tariffs

23.8.2 Operating expenditure

23.8.3 Capital expenditure

23.9 Government's water strategy

23.10 Private sector participation

23.11 Current and future projects

23.12 Market forecast

**24. Romania**

24.1 General indicators

24.2 Introduction

24.3 Overview of challenges

24.4 Water sector organization and structure

24.4.1 Government ministries and agencies

24.4.2 Companies

24.5 Supply and demand details

24.5.1 Water supply

24.5.2 Water demand

24.6 Municipal water and wastewater infrastructure

24.6.1 Key performance indicators: Water

24.6.2 Key performance indicators: Wastewater

24.6.3 Water treatment plants

24.6.4 Desalination

24.6.5 Wastewater treatment plants

24.6.6 Water reuse

24.7 Water in industry

24.8 Water finance

24.8.1 Tariffs

24.8.2 Operating expenditure

24.8.3 Capital expenditure

24.9 Government's water strategy

24.10 Private sector participation

24.11 Current and future projects

24.12 Market forecast

---

## **25. Russian Federation**

---

25.1 General indicators

25.2 Introduction

25.3 Overview of challenges

25.4 Water sector organization and structure

25.4.1 Government ministries and agencies

25.4.2 Companies

25.5 Supply and demand details

25.5.1 Water supply

25.5.2 Water demand

25.6 Municipal water and wastewater infrastructure

25.6.1 Key performance indicators: Water

25.6.2 Key performance indicators: Wastewater

25.6.3 Water treatment plants

25.6.4 Desalination

25.6.5 Wastewater treatment plants

25.6.6 Water reuse

25.7 Water in industry

25.8 Water finance

25.8.1 Tariffs

25.8.2 Operating expenditure

25.8.3 Capital expenditure

25.9 Government's water strategy

25.10 Private sector participation

25.11 Current and future projects

25.12 Market forecast

---

## **Latin America and Caribbean**

---

### **26. Argentina**

---

26.1 General indicators

26.2 Introduction

26.3 Overview of challenges

26.4 Water sector organization and structure

26.4.1 Government ministries and agencies

26.4.2 Companies

26.5 Supply and demand details

26.5.1 Water supply

26.5.2 Water demand

26.6 Municipal water and wastewater infrastructure

26.6.1 Key performance indicators: Water

26.6.2 Key performance indicators: Wastewater

26.6.3 Water treatment plants

26.6.4 Desalination

---

26.6.5 Wastewater treatment plants

26.6.6 Water reuse

26.7 Water in industry

26.8 Water finance

26.8.1 Tariffs

26.8.2 Operating expenditure

26.8.3 Capital expenditure

26.9 Government's water strategy

26.10 Private sector participation

26.11 Current and future projects

26.12 Market forecast

## **27. Brazil**

27.1 General indicators

27.2 Introduction

27.3 Overview of challenges

27.4 Water sector organization and structure

27.4.1 Government ministries and agencies

27.4.2 Companies

27.5 Supply and demand details

27.5.1 Water supply

27.5.2 Water demand

27.6 Municipal water and wastewater infrastructure

27.6.1 Key performance indicators: Water

27.6.2 Key performance indicators: Wastewater

27.6.3 Water treatment plants

27.6.4 Desalination

27.6.5 Wastewater treatment plants

27.6.6 Water reuse

27.7 Water in industry

27.8 Water finance

27.8.1 Tariffs

27.8.2 Operating expenditure

27.8.3 Capital expenditure

27.9 Government's water strategy

27.10 Private sector participation

27.11 Current and future projects

27.12 Market forecast

## **28. Chile**

28.1 General indicators

28.2 Introduction

28.3 Overview of challenges

28.4 Water sector organization and structure

---

28.4.1 Government ministries and agencies

28.4.2 Companies

28.5 Supply and demand details

28.5.1 Water supply

28.5.2 Water demand

28.6 Municipal water and wastewater infrastructure

28.6.1 Key performance indicators: Water

28.6.2 Key performance indicators: Wastewater

28.6.3 Water treatment plants

28.6.4 Desalination

28.6.5 Wastewater treatment plants

28.6.6 Water reuse

28.7 Water in industry

28.8 Water finance

28.8.1 Tariffs

28.8.2 Operating expenditure

28.8.3 Capital expenditure

28.9 Government's water strategy

28.10 Private sector participation

28.11 Current and future projects

28.12 Market forecast

## **29. Columbia**

29.1 General indicators

29.2 Introduction

29.3 Overview of challenges

29.4 Water sector organization and structure

29.4.1 Government ministries and agencies

29.4.2 Companies

29.5 Supply and demand details

29.5.1 Water supply

29.5.2 Water demand

29.6 Municipal water and wastewater infrastructure

29.6.1 Key performance indicators: Water

29.6.2 Key performance indicators: Wastewater

29.6.3 Water treatment plants

29.6.4 Desalination

29.6.5 Wastewater treatment plants

29.6.6 Water reuse

29.7 Water in industry

29.8 Water finance

29.8.1 Tariffs

29.8.2 Operating expenditure

29.8.3 Capital expenditure

29.9 Government's water strategy

29.10 Private sector participation

29.11 Current and future projects

29.12 Market forecast

### **30. Mexico**

30.1 General indicators

30.2 Introduction

30.3 Overview of challenges

30.4 Water sector organization and structure

30.4.1 Government ministries and agencies

30.4.2 Companies

30.5 Supply and demand details

30.5.1 Water supply

30.5.2 Water demand

30.6 Municipal water and wastewater infrastructure

30.6.1 Key performance indicators: Water

30.6.2 Key performance indicators: Wastewater

30.6.3 Water treatment plants

30.6.4 Desalination

30.6.5 Wastewater treatment plants

30.6.6 Water reuse

30.7 Water in industry

30.8 Water finance

30.8.1 Tariffs

30.8.2 Operating expenditure

30.8.3 Capital expenditure

30.9 Government's water strategy

30.10 Private sector participation

30.11 Current and future projects

30.12 Market forecast

### **31. Peru**

31.1 General indicators

31.2 Introduction

31.3 Overview of challenges

31.4 Water sector organization and structure

31.4.1 Government ministries and agencies

31.4.2 Companies

31.5 Supply and demand details

31.5.1 Water supply

31.5.2 Water demand

31.6 Municipal water and wastewater infrastructure

31.6.1 Key performance indicators: Water

---

31.6.2 Key performance indicators: Wastewater

31.6.3 Water treatment plants

31.6.4 Desalination

31.6.5 Wastewater treatment plants

31.6.6 Water reuse

31.7 Water in industry

31.8 Water finance

31.8.1 Tariffs

31.8.2 Operating expenditure

31.8.3 Capital expenditure

31.9 Government's water strategy

31.10 Private sector participation

31.11 Current and future projects

31.12 Market forecast

---

## **Middle East and North Africa**

---

### **32. Algeria**

---

32.1 General indicators

32.2 Introduction

32.3 Overview of challenges

32.4 Water sector organization and structure

32.4.1 Government ministries and agencies

32.4.2 Companies

32.5 Supply and demand details

32.5.1 Water supply

32.5.2 Water demand

32.6 Municipal water and wastewater infrastructure

32.6.1 Key performance indicators: Water

32.6.2 Key performance indicators: Wastewater

32.6.3 Water treatment plants

32.6.4 Desalination

32.6.5 Wastewater treatment plants

32.6.6 Water reuse

32.7 Water in industry

32.8 Water finance

32.8.1 Tariffs

32.8.2 Operating expenditure

32.8.3 Capital expenditure

32.9 Government's water strategy

32.10 Private sector participation

32.11 Current and future projects

32.12 Market forecast
