Global Water Market 2011

Volume I: Introduction and The Americas

1. Introduction

1.1 The global water myth
1.2 The global water market

1.3 Utility capital expenditure

1.4 Utility capex drivers

1.5 Water utility finance

1.6 Water market trends

1.7 The industrial water market

© GWI no copying without permission. Contact ewelsh@globalwaterintel.com
2. The outlook for private water 66

2.1 The outlook for private water

2.2 An overview of PSP trends – The different models of private sector participation 71

2.3 Funding flows and populations served

2.3.1 Global trends

2.3.2 China

2.3.3 Rest of Asia

2.3.4 Europe

2.3.5 North America

2.3.6 Latin America and the Caribbean

2.3.7 Middle East and North Africa

2.3.8 Sub-Saharan Africa

2.4 Expenditure on private water and wastewater operations, 2007-2016 67

2.5 Private wastewater investment forecast data by region, 2007-2016 (% of total capex) 69

2.6 Private wastewater investment forecast data by region, 2007-2016 (% of total capex) 69

2.7 Private water operations forecast data by region, 2007-2016 (% investment value) 70

2.8 Private water operations forecast data by region, 2007-2016 (% of total capex) 70

2.9 Private wastewater operations forecast data by region, 2007-2016 (% investment value) 71

2.10 Private water operations forecast data by region, 2007-2016 (% of total capex) 71

2.11 The ‘British’, ‘French’ and ‘German’ models 72

2.12 Operating/management contracts for networks

2.13 Lease/’affermage’ contract

2.14 Concessions: DBO and BOO/BOT

2.15 Variants of the BOT model

2.16 DBO concession summary

2.17 Investor-owned summary

2.18 Global contract awards

2.19 Global investment trends

2.20 Regional breakdown of contract awards

2.21 Regional breakdown of investment

2.22 China: Concessions

2.23 China: Greenfield

2.24 China: Acquisitions

2.25 China: BOT contracts

2.26 China: TOT contracts

2.27 China: Asset privatisations

2.28 Rest of Asia: Concessions

2.29 Rest of Asia: Greenfield

2.30 Rest of Asia: BOT contracts

2.31 Europe: BOT contracts

2.32 North American tuck-in acquisitions, 1996-2009

2.33 Development of the outsourcing market in the USA, 1997-2008

2.34 Latin America and Caribbean: Concessions

2.35 Latin America and Caribbean: Greenfield

2.36 Latin America: BOT contracts

2.37 Middle East and North Africa

2.38 Middle East and North Africa: O&M contract awards

2.39 Middle East and North Africa: BOT awards

2.40 Sub-Saharan Africa: BOT contracts
3. Water Scarcity, Desalination and Reuse

3.1 The crisis of water scarcity

3.2 Understanding water scarcity

3.3 Water demand

3.4 Agricultural demand

3.5 Industrial demand

3.6 Domestic demand

3.7 Water supply

3.8 Global warming

3.9 Demand management

3.10 Water tariffs

3.11 Water efficiency

3.12 Demand management summary

3.13 Supply management

3.14 Water transport

3.15 Desalination

3.16 Defining desalination

3.17 Desalination processes

3.17.1 MSF desalination

3.17.2 Multi-Effect Distillation (MED)

3.17.3 Reverse Osmosis (RO)

3.17.4 Electrodialysis (ED)

3.17.5 Hybrid models

3.17.6 Other processes

3.17.7 Nano-engineered membranes

3.17.8 Thin film composite membranes

3.17.9 Aquaporin

3.17.10 Membrane distillation

3.17.11 Forward osmosis

3.18 Process comparison

3.19 Desalination process trends
3.38 The rationale for higher value water reuse

Figure 3.60 The model for agricultural water reuse: the theory 137
Figure 3.61 The model for agricultural water reuse: the practice 137
Figure 3.62 The model for high value water reuse 138

4. Canada 140

4.1 Demographic indicators 140

Figure 4.1 Population indicators, Canada 140
Figure 4.2 Economic indicators, Canada 140

4.2 Introduction 140

4.3 Overview of challenges 140

4.4 Water sector organisation and structure 140

4.4.1 Government ministries and agencies 140

Figure 4.3 Government water resources-related agencies in Alberta 141

4.4.2 Companies 141

4.5 Supply and demand details 141

4.5.1 Water supply 141

Figure 4.4 Water resources in Canada 141

4.5.2 Sectoral water use 141

Figure 4.5 Breakdown of water withdrawal by user, 2005 142

4.6 Municipal water and wastewater infrastructure 142

4.6.1 Key performance indicators: water 142

Figure 4.6 Breakdown of municipal water supply by source, 1996-2004 142
Figure 4.7 Municipal water demand in Canada 143
Figure 4.8 Population forecast for Canada, 2011-2031 143
Figure 4.9 Water supply indicators, Canada 144

4.6.2 Key performance indicators: wastewater 144

Figure 4.10 Wastewater indicators, Canada 144

4.6.3 Water treatment plants 144

4.6.4 Desalination 145

4.6.5 Wastewater treatment plants 145

4.6.6 Water reuse 145

4.7 Water in industry 146

Figure 4.11 Services and Goods Industry contribution to GDP in Canada, 2008 146
Figure 4.12 Industrial water use, 1996-2005 147
Figure 4.13 Calculated GDP/m³ for water use in selected industries 147
Figure 4.14 Sources of water intake by industries, 2005 147
Figure 4.15 Breakdown of wastewater treatment by treatment type, 2005 148
Figure 4.16 Industrial water discharge by treatment type, 2005 148

4.8 Water finance 149

4.8.1 Tariffs 149

Figure 4.17 Mean price for residential municipal water at 25m³ usage, 1991-2004 149

4.8.2 Operating expenditure 149

Figure 4.18 Operation and maintenance costs of drinking water plants, 2005-2007 150
Figure 4.19 Breakdown of operation and maintenance costs of drinking water plants, 2007 150
Figure 4.20 WWTP operation and maintenance costs by treatment type, 2007 150

4.8.3 Capital expenditure 151

Figure 4.21 Municipal capital expenditure on water, 2004-2007 151

4.9 Government’s water strategy 151

Figure 4.22 National Performance Standards 151
Figure 4.23 Estimated costs of implementation of National Performance Standards over 30 years 152

4.10 Private sector participation 152

4.10.1 General discussion 152

4.10.2 Existing PPPs 152

4.11 Current and future projects 153

4.11.1 Tracked projects 153

Figure 4.24 Tracked PPP projects in Canada 153

4.12 Market forecast 153

5. United States of America (USA) 158

5.1 Demographic indicators 158

5.2 Introduction 158

5.3 Overview of challenges 158

5.4 Water sector organisation and structure 159

5.4.1 Federal agencies 159

5.4.2 Regional agencies 159

5.4.3 State agencies 159

5.4.4 Public Utilities 160

5.5 Supply and demand details 160

5.5.1 Water supply 160

5.5.2 Sectoral water use 160

5.6 Municipal water and wastewater infrastructure 161

5.6.1 Key performance indicators: water 161

5.6.2 Key performance indicators: wastewater 162

5.6.3 Water treatment plants 162

5.6.4 Desalination 163

5.6.5 Wastewater treatment plants (WWTPs) 163

5.6.6 Water reuse 163

5.7 Water in industry 164

5.7.1 Thermoelectricity 164

5.7.2 Agriculture 164

5.7.3 Manufacturing 164

5.7.4 Gas and oil 164

5.8 Water finance 164

5.8.1 Tariffs 165

5.8.2 Operating expenditure 165

5.8.3 Capital expenditure 165

5.8.3.1 Spending needs 165

5.9 Government’s water strategy 170

5.9.1 Federal funding 170

5.9.2 Future infrastructure investment 170

5.10 Private sector participation 170

5.11 Current and future projects 171

5.11.1 Tracked projects 172

5.12 Market forecast 187

**Volume 2: Europe and Africa**

### 12. Water regulation in the European Union

#### 12.1 The Environment Directorate General and EU environmental legislation

- 12.2 EU environmental directives
  - 12.2.1 Environmental Liability: 2000/66/EC
  - 12.2.3 Public Access to Environmental Information: 2003/4/EC
  - 12.2.5 Waste Incineration: 98/558/EC, amended 2000/76/EC
  - 12.2.6 European Environment Agency: 1990/120/EC
  - 12.2.7 Urban Wastewater Treatment: 1991/271/EC, amended 1998/15/EC
  - 12.2.8 Bathing Water Directive (2006/7/EC)
  - 12.2.10 Priority Substances List: 2001/17/EC
  - 12.2.14 Nitrates in Agriculture (1991/676/EC)
  - 12.2.15 Sewage Sludge Directive (1986/278/EC)
  - 12.2.16 Allowable levels of metals in sewage sludge
  - 12.2.18 Priority Substances List: 2001/17/EC

#### 12.2 The opportunities created

#### 12.3 The cost of compliance
