# Municipal Water Reuse Markets 2010

---

## Foreword

---

## Executive summary

---

## Overview

---

### 1. Introduction to water reuse

---

1.1 What is water reuse?

1.2 Terminology used in this report

1.3 Constituents in untreated municipal wastewater

1.4 Secondary treatment technologies

1.4.1 Non membrane processes

1.4.1.1 Suspended growth

Activated sludge

1.4.1.2 Attached growth

Trickling filters

Rotating biological contractors

1.4.1.3 Hybrid process

1.4.1.4 Lagoons

Waste stabilization pond

1.4.1.5 Nutrient removal in secondary non-membrane processes

1.4.2 Membrane processes

1.4.2.1 Comparison of membrane and non-membrane systems for secondary wastewater treatment

1.5 Tertiary treatment technologies

1.5.1 Depth filtration

1.5.2 Surface filtration

1.5.3 Membrane filtration

1.5.4 Microfiltration (MF) and ultrafiltration (UF)

1.5.5 Dissolved air flotation (DAF)

1.6 Advanced treatment

1.6.1 Technologies used for the removal of dissolved solids

1.6.1.1 Nanofiltration (NF) and reverse osmosis (RO)

1.6.1.2 Electrodialysis

1.6.2 Technologies used for the removal of trace constituents

1.7 Mass transfer separation processes

1.7.1 Adsorption

1.7.2 Ion exchange

1.7.3 Distillation

1.7.3.1 Multiple-effect evaporation (MEE)

1.7.3.2 Multistage flash evaporation (MFE)

1.7.3.3 Vapor compression distillation

1.8 Chemical and biological transformation and destruction processes

---

1.8.1 Chemical oxidation

1.8.1.1 Conventional chemical oxidation

1.8.1.2 Advanced oxidation process (AOP)

1.8.2 Photolysis

1.8.3 Advanced biological transformations

1.8.3.1 Biological activated carbon

1.8.3.2 Membrane biofilm reactor

1.9 Disinfection technologies

1.9.1 Chlorine and related compounds

1.9.2 Ozone

1.9.3 Ultraviolet (UV) radiation

1.10 Issues in the selection of technologies for water reuse

1.11 Scale of water reuse facilities

1.11.1 Centralised treatment facilities

1.11.2 Satellite treatment facilities

1.11.3 Decentralised treatment facilities

1.12 Historical and future trends in water reuse

**2. The economics of water reuse**

2.1 Introduction

2.2 Framework

2.3 Benefits

2.4 Cost

2.5 Price sensitivity analysis

2.6 Financing water reuse

2.6.1 Developed countries

2.6.2 Developing countries

**3. Global Reuse Markets Forecast**

3.1 Framework

3.2 Global capacity forecast

3.3 Global capital expenditure forecast

3.4 Global operating expenditure forecast

**The Americas**

**4. Mexico**

4.1 Key indicators

4.1.1 General

4.1.2 Water resources and sources of demand

4.2 Introduction

4.3 Overview of challenges

4.4 Government's water strategy

4.5 Water sector structure

4.5.1 Water regulatory environment

---

4.5.2 Water financing environment

---

4.6 The economics of water

---

4.6.1 Water supply

---

4.6.2 Water demand

---

4.6.3 Price of water

---

4.7 Developments in water reuse

---

4.8 Water reuse technologies

---

4.9 The economics of water reuse

---

4.9.1 Reclaimed water supply

---

4.9.2 Reclaimed water demand

---

4.9.3 Price of reclaimed water

---

4.10 Summary of water reuse facilities

---

4.11 Proposed water reuse projects and opportunities

---

4.12 Mexico water reuse market forecast

---

4.12.1 Water reuse capacity forecast

---

4.12.2 Water reuse capital expenditure forecast

---

4.12.3 Water reuse operating expenditure forecast

---

4.13 Case studies in water reuse

---

4.13.1 Case study 1

---

4.13.2 Case study 2

---

4.13.3 Case study 3

---

## **5. United States of America**

---

5.1 Key indicators

---

5.1.1 General

---

5.1.2 Water resources and sources of demand

---

5.2 Introduction

---

5.3 Overview of challenges

---

5.4 Government's water strategy

---

5.5 Water sector structure

---

5.5.1 Water regulatory environment

---

5.5.2 Water financing environment

---

5.6 The economics of water

---

5.6.1 Water supply

---

5.6.2 Water demand

---

5.6.3 Price of water

---

5.7 Developments in water reuse

---

5.8 Water reuse technologies

---

5.9 The economics of water reuse

---

5.9.1 Reclaimed water supply

---

5.9.2 Reclaimed water demand

---

5.9.3 Price of reclaimed water

---

5.10 Summary of water reuse facilities

---

5.11 Proposed water reuse projects and opportunities

---

5.12 USA water reuse market forecast

5.12.1 Water reuse capacity forecast

5.12.2 Water reuse capital expenditure forecast

5.12.3 Water reuse operating expenditure forecast

5.13 Case studies in water reuse

5.13.1 Case study 1

5.13.2 Case study 2

5.13.3 Case study 3

**Europe**

---

**6. Cyprus**

6.1 Key indicators

6.1.1 General

6.1.2 Water resources and sources of demand

6.2 Introduction

6.3 Overview of challenges

6.4 Government's water strategy

6.5 Water sector structure

6.5.1 Water regulatory environment

6.5.2 Water financing environment

6.6 The economics of water

6.6.1 Water supply

6.6.2 Water demand

6.6.3 Price of water

6.7 Developments in water reuse

6.8 Water reuse technologies

6.9 The economics of water reuse

6.9.1 Reclaimed water supply

6.9.2 Reclaimed water demand

6.9.3 Price of reclaimed water

6.10 Summary of water reuse facilities

6.11 Proposed water reuse projects and opportunities

6.12 Cyprus water reuse market forecast

6.12.1 Water reuse capacity forecast

6.12.2 Water reuse capital expenditure forecast

6.12.3 Water reuse operating expenditure forecast

6.13 Case studies in water reuse

6.13.1 Case study 1

6.13.2 Case study 2

6.13.3 Case study 3

**7. Greece**

7.1 Key indicators

7.1.1 General

---

7.1.2 Water resources and sources of demand

---

7.2 Introduction

---

7.3 Overview of challenges

---

7.4 Government's water strategy

---

7.5 Water sector structure

---

7.5.1 Water regulatory environment

---

7.5.2 Water financing environment

---

7.6 The economics of water

---

7.6.1 Water supply

---

7.6.2 Water demand

---

7.6.3 Price of water

---

7.7 Developments in water reuse

---

7.8 Water reuse technologies

---

7.9 The economics of water reuse

---

7.9.1 Reclaimed water supply

---

7.9.2 Reclaimed water demand

---

7.9.3 Price of reclaimed water

---

7.10 Summary of water reuse facilities

---

7.11 Proposed water reuse projects and opportunities

---

7.12 Greece water reuse market forecast

---

7.12.1 Water reuse capacity forecast

---

7.12.2 Water reuse capital expenditure forecast

---

7.12.3 Water reuse operating expenditure forecast

---

7.13 Case studies in water reuse

---

7.13.1 Case study 1

---

7.13.2 Case study 2

---

7.13.3 Case study 3

---

## **8. Italy**

---

8.1 Key indicators

---

8.1.1 General

---

8.1.2 Water resources and sources of demand

---

8.2 Introduction

---

8.3 Overview of challenges

---

8.4 Government's water strategy

---

8.5 Water sector structure

---

8.5.1 Water regulatory environment

---

8.5.2 Water financing environment

---

8.6 The economics of water

---

8.6.1 Water supply

---

8.6.2 Water demand

---

8.6.3 Price of water

---

8.7 Developments in water reuse

---

8.8 Water reuse technologies

---

8.9 The economics of water reuse

8.9.1 Reclaimed water supply

8.9.2 Reclaimed water demand

8.9.3 Price of reclaimed water

8.10 Summary of water reuse facilities

8.11 Proposed water reuse projects and opportunities

8.12 Italy water reuse market forecast

8.12.1 Water reuse capacity forecast

8.12.2 Water reuse capital expenditure forecast

8.12.3 Water reuse operating expenditure forecast

8.13 Case studies in water reuse

8.13.1 Case study 1

8.13.2 Case study 2

8.13.3 Case study 3

**9. Spain**

9.1 Key indicators

9.1.1 General

9.1.2 Water resources and sources of demand

9.2 Introduction

9.3 Overview of challenges

9.4 Government's water strategy

9.5 Water sector structure

9.5.1 Water regulatory environment

9.5.2 Water financing environment

9.6 The economics of water

9.6.1 Water supply

9.6.2 Water demand

9.6.3 Price of water

9.7 Developments in water reuse

9.8 Water reuse technologies

9.9 The economics of water reuse

9.9.1 Reclaimed water supply

9.9.2 Reclaimed water demand

9.9.3 Price of reclaimed water

9.10 Summary of water reuse facilities

9.11 Proposed water reuse projects and opportunities

9.12 Spain water reuse market forecast

9.12.1 Water reuse capacity forecast

9.12.2 Water reuse capital expenditure forecast

9.12.3 Water reuse operating expenditure forecast

9.13 Case studies in water reuse

9.13.1 Case study 1

9.13.2 Case study 2

## **The Middle East and Africa**

### **10. Algeria**

#### 10.1 Key indicators

##### 10.1.1 General

##### 10.1.2 Water resources and sources of demand

#### 10.2 Introduction

#### 10.3 Overview of challenges

#### 10.4 Government's water strategy

#### 10.5 Water sector structure

##### 10.5.1 Water regulatory environment

##### 10.5.2 Water financing environment

#### 10.6 The economics of water

##### 10.6.1 Water supply

##### 10.6.2 Water demand

##### 10.6.3 Price of water

#### 10.7 Developments in water reuse

#### 10.8 Water reuse technologies

#### 10.9 The economics of water reuse

##### 10.9.1 Reclaimed water supply

##### 10.9.2 Reclaimed water demand

##### 10.9.3 Price of reclaimed water

#### 10.10 Summary of water reuse facilities

#### 10.11 Proposed water reuse projects and opportunities

#### 10.12 Algeria water reuse market forecast

##### 10.12.1 Water reuse capacity forecast

##### 10.12.2 Water reuse capital expenditure forecast

##### 10.12.3 Water reuse operating expenditure forecast

#### 10.13 Case studies in water reuse

##### 10.13.1 Case study 1

##### 10.13.2 Case study 2

##### 10.13.3 Case study 3

### **11. Egypt**

#### 11.1 Key indicators

##### 11.1.1 General

##### 11.1.2 Water resources and sources of demand

#### 11.2 Introduction

#### 11.3 Overview of challenges

#### 11.4 Government's water strategy

#### 11.5 Water sector structure

##### 11.5.1 Water regulatory environment

##### 11.5.2 Water financing environment

11.6 The economics of water

11.6.1 Water supply

11.6.2 Water demand

11.6.3 Price of water

11.7 Developments in water reuse

11.8 Water reuse technologies

11.9 The economics of water reuse

11.9.1 Reclaimed water supply

11.9.2 Reclaimed water demand

11.9.3 Price of reclaimed water

11.10 Summary of water reuse facilities

11.11 Proposed water reuse projects and opportunities

11.12 Egypt water reuse market forecast

11.12.1 Water reuse capacity forecast

11.12.2 Water reuse capital expenditure forecast

11.12.3 Water reuse operating expenditure forecast

11.13 Case studies in water reuse

11.13.1 Case study 1

11.13.2 Case study 2

11.13.3 Case study 3

**12. Israel**

12.1 Key indicators

12.1.1 General

12.1.2 Water resources and sources of demand

12.2 Introduction

12.3 Overview of challenges

12.4 Government's water strategy

12.5 Water sector structure

12.5.1 Water regulatory environment

12.5.2 Water financing environment

12.6 The economics of water

12.6.1 Water supply

12.6.2 Water demand

12.6.3 Price of water

12.7 Developments in water reuse

12.8 Water reuse technologies

12.9 The economics of water reuse

12.9.1 Reclaimed water supply

12.9.2 Reclaimed water demand

12.9.3 Price of reclaimed water

12.10 Summary of water reuse facilities

12.11 Proposed water reuse projects and opportunities

12.12 Israel water reuse market forecast

- 12.12.1 Water reuse capacity forecast
- 12.12.2 Water reuse capital expenditure forecast
- 12.12.3 Water reuse operating expenditure forecast

#### 12.13 Case studies in water reuse

- 12.13.1 Case study 1
- 12.13.2 Case study 2
- 12.13.3 Case study 3

### **13. Kuwait**

#### 13.1 Key indicators

- 13.1.1 General
- 13.1.2 Water resources and sources of demand

#### 13.2 Introduction

#### 13.3 Overview of challenges

#### 13.4 Government's water strategy

#### 13.5 Water sector structure

- 13.5.1 Water regulatory environment
- 13.5.2 Water financing environment

#### 13.6 The economics of water

- 13.6.1 Water supply
- 13.6.2 Water demand
- 13.6.3 Price of water

#### 13.7 Developments in water reuse

#### 13.8 Water reuse technologies

#### 13.9 The economics of water reuse

- 13.9.1 Reclaimed water supply
- 13.9.2 Reclaimed water demand
- 13.9.3 Price of reclaimed water

#### 13.10 Summary of water reuse facilities

#### 13.11 Proposed water reuse projects and opportunities

#### 13.12 Kuwait water reuse market forecast

- 13.12.1 Water reuse capacity forecast
- 13.12.2 Water reuse capital expenditure forecast
- 13.12.3 Water reuse operating expenditure forecast

#### 13.13 Case studies in water reuse

- 13.13.1 Case study 1
- 13.13.2 Case study 2
- 13.13.3 Case study 3

### **14. Morocco**

#### 14.1 Key indicators

- 14.1.1 General
- 14.1.2 Water resources and sources of demand

#### 14.2 Introduction

14.3 Overview of challenges

14.4 Government's water strategy

14.5 Water sector structure

14.5.1 Water regulatory environment

14.5.2 Water financing environment

14.6 The economics of water

14.6.1 Water supply

14.6.2 Water demand

14.6.3 Price of water

14.7 Developments in water reuse

14.8 Water reuse technologies

14.9 The economics of water reuse

14.9.1 Reclaimed water supply

14.9.2 Reclaimed water demand

14.9.3 Price of reclaimed water

14.10 Summary of water reuse facilities

14.11 Proposed water reuse projects and opportunities

14.12 Morocco water reuse market forecast

14.12.1 Water reuse capacity forecast

14.12.2 Water reuse capital expenditure forecast

14.12.3 Water reuse operating expenditure forecast

14.13 Case studies in water reuse

14.13.1 Case study 1

14.13.2 Case study 2

14.13.3 Case study 3

## **15. Namibia**

15.1 Key indicators

15.1.1 General

15.1.2 Water resources and sources of demand

15.2 Introduction

15.3 Overview of challenges

15.4 Government's water strategy

15.5 Water sector structure

15.5.1 Water regulatory environment

15.5.2 Water financing environment

15.6 The economics of water

15.6.1 Water supply

15.6.2 Water demand

15.6.3 Price of water

15.7 Developments in water reuse

15.8 Water reuse technologies

15.9 The economics of water reuse

15.9.1 Reclaimed water supply

---

15.9.2 Reclaimed water demand

15.9.3 Price of reclaimed water

15.10 Summary of water reuse facilities

15.11 Proposed water reuse projects and opportunities

15.12 Namibia water reuse market forecast

15.12.1 Water reuse capacity forecast

15.12.2 Water reuse capital expenditure forecast

15.12.3 Water reuse operating expenditure forecast

15.13 Case studies in water reuse

15.13.1 Case study 1

15.13.2 Case study 2

15.13.3 Case study 3

## **16. Oman**

16.1 Key indicators

16.1.1 General

16.1.2 Water resources and sources of demand

16.2 Introduction

16.3 Overview of challenges

16.4 Government's water strategy

16.5 Water sector structure

16.5.1 Water regulatory environment

16.5.2 Water financing environment

16.6 The economics of water

16.6.1 Water supply

16.6.2 Water demand

16.6.3 Price of water

16.7 Developments in water reuse

16.8 Water reuse technologies

16.9 The economics of water reuse

16.9.1 Reclaimed water supply

16.9.2 Reclaimed water demand

16.9.3 Price of reclaimed water

16.10 Summary of water reuse facilities

16.11 Proposed water reuse projects and opportunities

16.12 Oman water reuse market forecast

16.12.1 Water reuse capacity forecast

16.12.2 Water reuse capital expenditure forecast

16.12.3 Water reuse operating expenditure forecast

16.13 Case studies in water reuse

16.13.1 Case study 1

16.13.2 Case study 2

16.13.3 Case study 3

## **17. Saudi Arabia**

17.1 Key indicators

17.1.1 General

17.1.2 Water resources and sources of demand

17.2 Introduction

17.3 Overview of challenges

17.4 Government's water strategy

17.5 Water sector structure

17.5.1 Water regulatory environment

17.5.2 Water financing environment

17.6 The economics of water

17.6.1 Water supply

17.6.2 Water demand

17.6.3 Price of water

17.7 Developments in water reuse

17.8 Water reuse technologies

17.9 The economics of water reuse

17.9.1 Reclaimed water supply

17.9.2 Reclaimed water demand

17.9.3 Price of reclaimed water

17.10 Summary of water reuse facilities

17.11 Proposed water reuse projects and opportunities

17.12 Saudi Arabia water reuse market forecast

17.12.1 Water reuse capacity forecast

17.12.2 Water reuse capital expenditure forecast

17.12.3 Water reuse operating expenditure forecast

17.13 Case studies in water reuse

17.13.1 Case study 1

17.13.2 Case study 2

17.13.3 Case study 3

**18. Syria**

18.1 Key indicators

18.1.1 General

18.1.2 Water resources and sources of demand

18.2 Introduction

18.3 Overview of challenges

18.4 Government's water strategy

18.5 Water sector structure

18.5.1 Water regulatory environment

18.5.2 Water financing environment

18.6 The economics of water

18.6.1 Water supply

18.6.2 Water demand

18.6.3 Price of water

- 18.7 Developments in water reuse
- 18.8 Water reuse technologies
- 18.9 The economics of water reuse
  - 18.9.1 Reclaimed water supply
  - 18.9.2 Reclaimed water demand
  - 18.9.3 Price of reclaimed water
- 18.10 Summary of water reuse facilities
- 18.11 Proposed water reuse projects and opportunities
- 18.12 Syria water reuse market forecast
  - 18.12.1 Water reuse capacity forecast
  - 18.12.2 Water reuse capital expenditure forecast
  - 18.12.3 Water reuse operating expenditure forecast
- 18.13 Case studies in water reuse
  - 18.13.1 Case study 1
  - 18.13.2 Case study 2
  - 18.13.3 Case study 3

## **19. Tunisia**

- 19.1 Key indicators
  - 19.1.1 General
  - 19.1.2 Water resources and sources of demand
- 19.2 Introduction
- 19.3 Overview of challenges
- 19.4 Government's water strategy
- 19.5 Water sector structure
  - 19.5.1 Water regulatory environment
  - 19.5.2 Water financing environment
- 19.6 The economics of water
  - 19.6.1 Water supply
  - 19.6.2 Water demand
  - 19.6.3 Price of water
- 19.7 Developments in water reuse
- 19.8 Water reuse technologies
- 19.9 The economics of water reuse
  - 19.9.1 Reclaimed water supply
  - 19.9.2 Reclaimed water demand
  - 19.9.3 Price of reclaimed water
- 19.10 Summary of water reuse facilities
- 19.11 Proposed water reuse projects and opportunities
- 19.12 Tunisia water reuse market forecast
  - 19.12.1 Water reuse capacity forecast
  - 19.12.2 Water reuse capital expenditure forecast
  - 19.12.3 Water reuse operating expenditure forecast
- 19.13 Case studies in water reuse

19.13.1 Case study 1

19.13.2 Case study 2

19.13.3 Case study 3

---

## **20. United Arab Emirates**

20.1 Key indicators

20.1.1 General

20.1.2 Water resources and sources of demand

20.2 Introduction

20.3 Overview of challenges

20.4 Government's water strategy

20.5 Water sector structure

20.5.1 Water regulatory environment

20.5.2 Water financing environment

20.6 The economics of water

20.6.1 Water supply

20.6.2 Water demand

20.6.3 Price of water

20.7 Developments in water reuse

20.8 Water reuse technologies

20.9 The economics of water reuse

20.9.1 Reclaimed water supply

20.9.2 Reclaimed water demand

20.9.3 Price of reclaimed water

20.10 Summary of water reuse facilities

20.11 Proposed water reuse projects and opportunities

20.12 UAE water reuse market forecast

20.12.1 Water reuse capacity forecast

20.12.2 Water reuse capital expenditure forecast

20.12.3 Water reuse operating expenditure forecast

20.13 Case studies in water reuse

20.13.1 Case study 1

20.13.2 Case study 2

20.13.3 Case study 3

---

## **21. Qatar**

21.1 Key indicators

21.1.1 General

21.1.2 Water resources and sources of demand

21.2 Introduction

21.3 Overview of challenges

21.4 Government's water strategy

21.5 Water sector structure

21.5.1 Water regulatory environment

---

---

21.5.2 Water financing environment

---

21.6 The economics of water

---

21.6.1 Water supply

---

21.6.2 Water demand

---

21.6.3 Price of water

---

21.7 Developments in water reuse

---

21.8 Water reuse technologies

---

21.9 The economics of water reuse

---

21.9.1 Reclaimed water supply

---

21.9.2 Reclaimed water demand

---

21.9.3 Price of reclaimed water

---

21.10 Summary of water reuse facilities

---

21.11 Proposed water reuse projects and opportunities

---

21.12 Qatar water reuse market forecast

---

21.12.1 Water reuse capacity forecast

---

21.12.2 Water reuse capital expenditure forecast

---

21.12.3 Water reuse operating expenditure forecast

---

21.13 Case studies in water reuse

---

21.13.1 Case study 1

---

21.13.2 Case study 2

---

21.13.3 Case study 3

---

## **Asia and Oceania**

---

### **22. Australia**

---

22.1 Key indicators

---

22.1.1 General

---

22.1.2 Water resources and sources of demand

---

22.2 Introduction

---

22.3 Overview of challenges

---

22.4 Government's water strategy

---

22.5 Water sector structure

---

22.5.1 Water regulatory environment

---

22.5.2 Water financing environment

---

22.6 The economics of water

---

22.6.1 Water supply

---

22.6.2 Water demand

---

22.6.3 Price of water

---

22.7 Developments in water reuse

---

22.8 Water reuse technologies

---

22.9 The economics of water reuse

---

22.9.1 Reclaimed water supply

---

22.9.2 Reclaimed water demand

---

22.9.3 Price of reclaimed water

---

22.10 Summary of water reuse facilities

22.11 Proposed water reuse projects and opportunities

22.12 Australia water reuse market forecast

22.12.1 Water reuse capacity forecast

22.12.2 Water reuse capital expenditure forecast

22.12.3 Water reuse operating expenditure forecast

22.13 Case studies in water reuse

22.13.1 Case study 1

22.13.2 Case study 2

22.13.3 Case study 3

## 23. China

23.1 Key indicators

23.1.1 General

23.1.2 Water resources and sources of demand

23.2 Introduction

23.3 Overview of challenges

23.4 Government's water strategy

23.5 Water sector structure

23.5.1 Water regulatory environment

23.5.2 Water financing environment

23.6 The economics of water

23.6.1 Water supply

23.6.2 Water demand

23.6.3 Price of water

23.7 Developments in water reuse

23.8 Water reuse technologies

23.9 The economics of water reuse

23.9.1 Reclaimed water supply

23.9.2 Reclaimed water demand

23.9.3 Price of reclaimed water

23.10 Summary of water reuse facilities

23.11 Proposed water reuse projects and opportunities

23.12 China water reuse market forecast

23.12.1 Water reuse capacity forecast

23.12.2 Water reuse capital expenditure forecast

23.12.3 Water reuse operating expenditure forecast

23.13 Case studies in water reuse

23.13.1 Case study 1

23.13.2 Case study 2

23.13.3 Case study 3
