

Global Water Market 2014

Volume 1: Introduction and The Americas

Publication information	ii
Unit conversion factors used in this publication	v
Exchange rates used in this publication	v
Indicators of utility service coverage	vi
Indicators of water service coverage	vi
Indicators of wastewater service coverage	vi
Executive summary	vii
Five big themes	vii
Top markets	vii
Brazil	vii
China	vii
India	vii
United States of America	vii
Evolution of capital expenditure in the top four markets, 2011–2018	viii
Rapidly-growing markets	viii
Colombia	viii
Indonesia	viii
Malaysia	viii
Mexico	viii
Russia	viii
Evolution of rapidly-growing markets, 2011–2018	ix
Large, established markets	ix
Australia	ix
France	ix
Germany	ix
Japan	ix
United Kingdom	ix
Saudi Arabia	x
Evolution of capital expenditure in established markets, 2011–2018	x
Summary	x
Total capital expenditure, 2011 and 2018	x
1. Introduction	1
1.1 What is the global water market?	1
Figure 1.1 The global water-related economy	1
Figure 1.2 The global water treatment and distribution market	2
Figure 1.3 The global water market: Capital expenditure	2
Figure 1.4 The global water market: Operating expenditure	2
1.2 Water resources development	2
Figure 1.5 Water withdrawal by sector, 2011	3
Figure 1.6 Water risk in 2030	3
Figure 1.7 Raw water sources for utilities and industry in 2011	4
Figure 1.8 Raw water sources for utilities and industry in 2030	4
1.2.1 Expenditure on water resources development	4
Figure 1.9 The water resources development market 2011–2018	5
Figure 1.10 Cost comparison of different water scarcity solutions	5
1.2.2 The desalination market	6
Figure 1.11 Global cumulative contracted and commissioned desalination capacity, 1965–2012	6
Figure 1.12 Annual new contracted and commissioned capacity, 1980–2011	6
1.2.2.1 Desalination technologies	7
Figure 1.13 Annual new contracted desalination capacity by technology, 2006–2012	8
Figure 1.14 Total worldwide installed desalination capacity by feedwater quality	8
1.2.2.2 Expenditure on desalination	9
Figure 1.15 Global seawater and brackish water desalination market, 2011–2018	9

Figure 1.16 Top 10 desalination markets, 2011–2018	9
1.2.2.3 Desalination market participants	10
Figure 1.17 Top 20 EPC contractors by capacity, 2006–2012	10
1.3 Networks	10
Figure 1.18 Water and wastewater network expenditure capital and operating costs, 2013	11
Figure 1.19 Water network capital expenditure by category, 2013	11
Figure 1.20 Wastewater network capital expenditure by category, 2013	11
Figure 1.21 Water and wastewater network capital expenditure, 2011–2018	12
Figure 1.22 Water network capital expenditure by category, 2011–2018	12
Figure 1.23 Wastewater network capital expenditure by category, 2011–2018	12
Figure 1.24 Municipal water network market by region	13
Figure 1.25 The top 10 municipal water network markets, 2013–2017	13
Figure 1.26 Municipal wastewater network market by region, 2011–2018	14
Figure 1.27 The top 10 municipal wastewater network markets, 2013–2017	14
1.3.1 Equipment forecast definitions and explanations	15
1.3.1.1 Pipes	15
1.3.1.2 Pumps	15
1.3.1.3 Valves / fittings	15
1.3.1.4 Automation and control	15
1.3.1.5 Meters	15
1.3.1.6 Design and engineering	15
1.3.1.7 Civil engineering	15
1.3.2 Network market analysis	15
1.3.3 Network-related equipment	15
1.3.3.1 Pipes	15
Figure 1.28 Total pipe market by material, 2013	16
Figure 1.29 Major pipe suppliers	16
1.3.4 Network maintenance	17
Figure 1.30 Network maintenance expenditure, 2011	17
1.3.5 Pumps	17
Figure 1.31 Pump market by application, 2013	17
Figure 1.32 Pump market forecast, 2011–2018	18
Figure 1.33 Major pump suppliers active in the water sector	18
1.3.6 Valves	19
Figure 1.34 Water valve market by application, 2013	19
Figure 1.35 Water valve market forecast, 2011–2018	19
Figure 1.36 Major water valve manufacturers	20
1.3.7 Meters, automation and control	20
Figure 1.37 Major companies in the water meter market	20
1.4 Water and wastewater treatment	20
Figure 1.38 Water and wastewater treatment: Industrial and municipal, 2013	20
Figure 1.39 Municipal water treatment market forecast, 2011–2018	21
Figure 1.40 Municipal water treatment plant market by region. 2011–2018	21
Figure 1.41 The top 10 municipal water treatment markets, 2013–2017	22
Figure 1.42 Municipal wastewater treatment market forecast, 2011–2018	23
Figure 1.43 Municipal wastewater treatment plant market by region, 2011–2018	23
Figure 1.44 The top 10 municipal wastewater treatment markets, 2013–2017	24
1.4.1 Water and wastewater treatment plant equipment forecast definitions	24
1.4.1.1 Screening / grit removal	24
1.4.1.2 Agitation / mixing / settling equipment	24
1.4.1.3 Aeration / flotation	24
1.4.1.4 Non-membrane filtration	24
1.4.1.5 Disinfection (chlorination, UV, ozonation)	25
1.4.1.6 Chemical feed systems	25
1.4.1.7 Test	25
1.4.1.8 Low pressure membrane elements (MF / UF)	25
1.4.1.9 High pressure membrane elements (RO/NF)	25
1.4.1.10 Ion exchange / EDI / adsorption	25
1.4.1.11 Sludge management	25

Sludge thickening / dewatering	25
Anaerobic digestion (sludge)	25
Sludge drying / thermal processes	25
Other sludge stabilisation	25
1.4.1.12 Other equipment	25
1.4.2 The water and wastewater treatment plant market	26
Figure 1.45 International water and wastewater treatment plant suppliers	26
1.4.3 Treatment plant procurement	27
Figure 1.46 Water and wastewater treatment plant market share by contracting model	29
1.5 The water treatment equipment market	29
1.5.1 The membrane market	29
Figure 1.47 Membrane pore size and separation potential	29
Figure 1.48 MF/UF and RO/NF membrane market	30
Figure 1.49 MF/UF and RO/NF membrane markets by sector	30
Figure 1.50 Low pressure membrane suppliers: market share of plants with a capacity over 10,000 m ³ /d	31
1.5.2 The ion exchange and adsorption market	31
Figure 1.51 The ion exchange and adsorption media market, 2013	32
Figure 1.52 The ion exchange and adsorption media market, 2013–2018	32
Figure 1.53 Major companies in the ion exchange market	32
Figure 1.54 Major companies in the electrodeionisation market	33
1.5.3 The disinfection market	33
Figure 1.55 The disinfection capital equipment market, 2013	33
Figure 1.56 The disinfection capital equipment market, 2013–2018	34
1.5.4 The water quality testing market	34
Figure 1.57 The water quality testing market, 2013	34
Figure 1.58 The water quality testing market, 2013–2018	35
1.6 The water operations sector	35
1.6.1 Overview of global operating expenditure	35
Figure 1.59 Total utility water and wastewater operating expenditure, 2013	36
Figure 1.60 Operating expenditure breakdown for WTPs and WWTPs, 2013	36
Figure 1.61 Operating expenditure breakdown for water and wastewater networks, 2013	37
Figure 1.62 Operating expenditure breakdown for non-water infrastructure items, 2013	38
Figure 1.63 Total utility water and wastewater operating expenditure breakdown, 2013	38
1.6.2 The private water operations market	38
1.6.2.1 The private water operations market since 2000	39
Figure 1.64 Number of people served under new private sector participation contracts	39
1.6.3 Private water operators	40
Figure 1.65 The top 50 private water operators	40
1.7 Introduction to the industrial water market	41
Figure 1.66 UPW, seawater desalination and wastewater desalination by industrial segment, 2011–2018	42
Figure 1.67 Industry-specific forecast categories and overall forecast categories	43
1.8 Oil and gas	44
Figure 1.68 Oil and gas industry market forecast, 2011–2018	45
Figure 1.69 Oil and gas industry, top country markets, 2013–2017	46
1.8.1 Forecasts	46
1.8.1.1 Unconventional gas	46
Figure 1.70 Oil and gas industry, unconventional gas combined by region, 2011–2018	47
1.8.1.2 Steam and water flood systems	47
Figure 1.71 Oil and gas industry, steam and water flood systems, by region 2011–2018	47
1.8.1.3 Produced water treatment systems	48
Figure 1.72 Oil and gas industry, produced water treatment systems by region, 2011–2018	48
1.9 Refining and petrochemicals	48
Figure 1.73 Future refining projects, 2012–2020	48
Figure 1.74 Future additional refining capacity by country, 2012–2017	49
1.9.1 Forecast assumptions	49
Figure 1.75 Refining and petrochemicals industry market forecast, 2011–2018	50
Figure 1.76 Refining and petrochemicals industry, top country markets, 2013–2017	50
Figure 1.77 Refining and petrochemicals industry: regional markets, 2013–2017	51
1.9.2 Seawater desalination	51
Figure 1.78 Refining and petrochemicals industry, seawater desalination by region, 2011–2018	51

1.10 Power	51
1.10.1 Overall picture	52
Figure 1.79 Power industry market forecast, 2011–2018	52
Figure 1.80 Power industry, top country markets, 2013–2017	53
Figure 1.81 Power industry: regional markets, 2013–2017	53
1.10.2 Forecast assumptions	53
Figure 1.82 Power industry, seawater desalination by region, 2011–2018	54
Figure 1.83 Power industry, water and ww treatment ex. seawater desalination, by region 2011–2018	54
Figure 1.84 Power industry, co-located power/desalination by region, 2011–2018	55
1.11 Food and beverage	55
Figure 1.85 Food and beverage industry market forecast, 2011–2018	56
Figure 1.86 Food and beverage industry, top country markets, 2013–2017	56
1.11.1 Forecast assumptions	56
Figure 1.87 Food and beverage industry by region, 2011–2018	57
1.12 Pharmaceutical	57
Figure 1.88 Pharmaceutical industry market forecast, 2011–2018	58
Figure 1.89 Pharmaceutical industry, top country markets, 2013–2017	58
1.12.1 Forecast assumptions	58
Figure 1.90 Pharmaceutical industry market forecast by region, 2011–2018	59
1.13 Microelectronics	59
1.13.1 Fabrication plant (fab) projects	59
1.13.2 Overall picture	60
Figure 1.91 Microelectronics industry market forecast, 2011–2025	60
1.13.3 Regional trends	60
Figure 1.92 Microelectronics industry, top country markets, 2013–2017	61
1.13.4 Forecast assumptions	61
Figure 1.93 Microelectronics industry by region, 2011–2018	61
1.14 Pulp and paper	62
Figure 1.94 Pulp and paper industry market forecast, 2011–2018	62
