

# Water Market Middle East 2010

<b>Water Market Middle East 2010 – Introduction</b>	<b>1</b>
1.1 Overview	1
1.2 Investment trends	1
1.3 Drinking water investment	4
1.4 Wastewater investment	6
1.5 Operating expenditure	7
1.6 Private sector participation	7
1.7 Industry trends: capex vs. opex	10
1.8 Industry trends: tariffs and water efficiency	10
1.9 Industry trends: local players	12
1.10 Industry trends: International players and strategy	13
1.11 Industry trends: Private developers and new models	13
1.12 Industry trends: New technologies	13
1.13 The forecasts	14
<b>Chapter 2 – Algeria</b>	<b>16</b>
2.1 Introduction	16
2.2 Overview of challenges	16
2.3 Water sector organisation and structure	16
2.4 Supply and demand details	17
2.5 Water production facilities	18
2.6 Wastewater / sewage treatment facilities	19
2.7 Key performance indicators	19
2.8 Tariffs	20
2.9 Institutional and legal arrangements	20
2.10 Finance	20
2.11 Government strategy	20
2.12 Current and future projects	21
2.13 Predictions and forecast	24
<b>Chapter 3 – Bahrain</b>	<b>27</b>
3.1 Introduction	27
3.2 Overview of challenges	27
3.3 Water sector organisation and structure	27
3.4 Supply and demand details	28
3.5 Water production facilities	29
3.6 Wastewater / sewage treatment facilities	31
3.7 Key performance indicators	32
3.8 Tariffs	32
3.9 Institutional and legal arrangements	33
3.10 Finance	33
3.11 Government strategy	33

3.12 Current and future projects	34
3.13 Predictions and forecast	36
<b>Chapter 4 – Egypt</b>	<b>39</b>
4.1 Introduction	39
4.2 Overview of challenges	39
4.3 Water sector organisation and structure	39
4.4 Supply and demand details	41
4.5 Water production facilities	41
4.6 Waste water / sewage treatment facilities	42
4.7 Key performance indicators	43
4.8 Tariffs	43
4.9 Institutional and legal arrangements	44
4.10 Finance	44
4.11 Government strategy	44
4.12 Current and future projects	45
4.13 Predictions and forecast	47
<b>Chapter 5 – Iran</b>	<b>52</b>
5.1 Introduction	52
5.2 Overview of challenges	52
5.3 Water sector organisation and structure	53
5.4 Supply and demand details	54
5.5 Water production facilities	55
5.6 Waste water / sewage treatment facilities	56
5.7 Key performance indicators	56
5.8 Tariffs	58
5.9 Institutional and legal arrangements	58
5.10 Finance	58
5.11 Government strategy	58
5.12 Current and future projects	60
5.13 Predictions and forecast	63
<b>Chapter 6 – Iraq</b>	<b>66</b>
6.1 Introduction	66
6.2 Overview of challenges	66
6.3 Water sector organisation and structure	66
6.4 Supply and demand details	66
6.5 Water production facilities	67
6.6 Waste water / sewage treatment facilities	67
6.7 Key performance indicators	67
6.8 Tariffs	68
6.9 Institutional and legal arrangements	68
6.10 Finance	68
6.11 Government strategy	68

6.12 Current and future projects	69
6.13 Predictions and forecast	69
<b>Chapter 7 – Israel</b>	<b>71</b>
7.1 Introduction	71
7.2 Overview of challenges	71
7.3 Water sector organisation and structure	72
7.4 Supply and demand	72
7.5 Water production facilities	73
7.6 Wastewater / sewage treatment facilities	74
7.7 Key performance indicators	74
7.8 Tariffs	75
7.9 Institutional and legal arrangements	75
7.10 Finance	75
7.11 Government strategy	75
7.12 Current and future projects	76
7.13 Predictions and forecast	79
<b>Chapter 8 – Jordan</b>	<b>81</b>
8.1 Introduction	81
8.2 Overview of challenges	81
8.3 Water sector organisation and structure	81
8.4 Supply and demand details	82
8.5 Water production facilities	83
8.7 Key performance indicators	85
8.8 Tariffs	86
8.9 Institutional and legal arrangements	86
8.10 Finance	87
8.11 Government strategy	87
8.12 Current and future projects	87
8.13 Predictions and forecast	90
<b>Chapter 9 – Kuwait</b>	<b>94</b>
9.1 Introduction	94
9.2 Overview of challenges	94
9.3 Water sector organisation and structure	94
9.4 Supply and demand details	95
9.5 Water production facilities	95
9.6 Waste water / sewage treatment facilities	97
9.7 Key performance indicators	98
9.8 Tariffs	99
9.9 Institutional and legal arrangements	100
9.10 Finance	100
9.11 Government strategy	100
9.12 Current and future projects	101

9.13 Predictions and forecast	102
<b>Chapter 10 – Lebanon</b>	<b>106</b>
10.1 Introduction	106
10.2 Overview of challenges	106
10.3 Water sector organisation and structure	107
10.4 Supply and demand	108
10.5 Water production facilities	109
10.6 Wastewater / sewage treatment facilities	109
10.7 Key performance indicators	110
10.8 Tariffs	112
10.9 Institutional and legal arrangements	112
10.10 Finance	112
10.11 Government strategy	113
10.12 Current and future projects	113
10.13 Predictions and forecast	115
<b>Chapter 11 – Libya</b>	<b>119</b>
11.1 Introduction	119
11.2 Overview of challenges	119
11.3 Water sector organisation and structure	119
11.4 Supply and demand details	120
11.5 Water production facilities	121
1.6 Waste water / sewage treatment facilities	125
11.7 Key performance indicators	125
11.8 Tariffs	126
11.9 Institutional and legal arrangements	126
11.10 Finance	126
11.11 Government strategy	126
11.12 Current and future projects	127
11.13 Predictions and forecast	130
<b>Chapter 12 – Morocco</b>	<b>134</b>
12.1 Introduction	134
12.2 Overview of challenges	134
12.3 Water sector organisation and structure	134
12.4 Supply and demand details	135
12.5 Water production facilities	136
12.6 Waste water / sewage treatment facilities	138
12.7 Key performance indicators	138
12.8 Tariffs	139
12.9 Institutional and legal arrangements	139
12.10 Finance	139
12.11 Government strategy	139
12.12 Current and future projects	141

12.13 Predictions and forecast	145
<b>Chapter 13 – Oman</b>	<b>147</b>
13.1 Introduction	147
13.2 Overview of challenges	147
13.3 Water sector organisation and structure	147
13.4 Supply and demand details	148
13.5 Water production facilities	149
13.6 Waste water / sewage treatment facilities	150
13.7 Key performance indicators	151
13.8 Tariffs	152
13.9 Institutional and legal arrangements	152
13.10 Government strategy	152
13.11 Current and future projects	154
13.12 Predictions and forecast	156
<b>Chapter 14 – Qatar</b>	<b>160</b>
14.1 Introduction	160
14.2 Overview of challenges	160
14.3 Water sector organisation and structure	160
14.4 Supply and demand details	161
14.5 Water production facilities	162
14.6 Waste water / sewage treatment facilities	164
14.7 Key performance indicators	165
14.8 Tariffs	166
14.9 Institutional and legal arrangements	167
14.10 Finance	167
14.11 Government strategy	167
14.12 Current and future projects	168
14.13 Predictions and forecast	170
<b>Chapter 15 – Saudi Arabia</b>	<b>173</b>
15.1 Introduction	173
15.2 Challenges	173
15.3 Water sector organisation and structure	174
15.4 Supply and demand details	176
15.6 Wastewater treatment facilities	180
15.7 Key Performance Indicators	181
15.7.1 Water	181
15.8 Tariffs	182
15.9 Institutional and Legal Arrangements	182
15.10 Finance	183
15.11 Government Strategy	185
15.12 Current and future projects	187

<b>Chapter 16 – Syria</b>	<b>193</b>
16.1 Introduction	193
16.2 Overview of challenges	193
16.3 Water sector organisation and structure	194
16.4 Supply and demand details	195
16.5 Water production facilities	195
16.6 Waste water / sewage treatment facilities	197
16.7 Key performance indicators	197
16.8 Tariffs	198
16.9 Institutional and legal arrangements	199
16.10 Finance	199
16.11 Government strategy	199
16.12 Current and future projects	201
16.13 Predictions and forecast	201
<b>Chapter 17 – Tunisia</b>	<b>204</b>
17.1 Introduction	204
17.2 Overview of challenges	204
17.3 Water sector organisation and structure	205
17.4 Details of supply and demand	205
17.5 Water production facilities	206
17.6 Wastewater / sewage treatment facilities	207
17.7 Key performance indicators	207
17.8 Tariffs	208
17.9 Government strategy	208
17.10 Current and future projects	209
17.12 Predictions and forecast	213
<b>Chapter 18 – Turkey</b>	<b>215</b>
18.1 Introduction	215
18.2 Overview of challenges	215
18.3 Water sector organisation and structure	216
18.4 Details of current water resources	217
18.5 Water production facilities	218
18.6 Wastewater / sewage treatment facilities	219
18.7 Key performance indicators	219
18.8 Tariffs	220
18.9 Institutional and legal arrangements	220
18.11 Government strategy	221
18.12 Current and future projects	222
18.13 Predictions and forecast	223
<b>Chapter 19 – United Arab Emirates, Abu Dhabi</b>	<b>225</b>
19.1 Introduction	225
19.2 Overview of challenges	225

19.4 Details of current water resources	226
19.5 Water production facilities	229
19.6 Waste water / sewage treatment facilities	229
19.7 Key performance indicators	230
19.8 Tariffs	230
19.9 Institutional and legal arrangements	231
19.10 Finance	232
19.11 Government strategy	233
19.12 Current and future projects	233
19.13 Predictions and forecast	236
<b>Chapter 20 – United Arab Emirates, Dubai</b>	<b>238</b>
20.1 Introduction	238
20.2 Overview of challenges	238
20.3 Water sector organisation and structure	238
20.4 Details of current water resources	238
20.5 Water production facilities	238
20.6 Waste water / sewage treatment facilities	239
20.7 Tariffs	239
20.8 Institutional and legal arrangements	239
20.10 Government strategy	240
20.12 Predictions	241
<b>Chapter 21 – Sharjah and the Northern Emirates</b>	<b>242</b>
21.1 Introduction	242
21.2 Overview of challenges	242
21.3 Water sector organisation and structure	242
21.4 Details of current water resources	242
21.5 Water production facilities	243
21.6 Waste water / sewage treatment facilities	244
21.7 Tariffs	245
21.8 Institutional and legal arrangements	245
21.9 Finance	245
21.10 Current and future projects	246
21.11 Predictions	246
<b>Chapter 22 – West Bank and Gaza</b>	<b>247</b>
22.1 Introduction	247
22.2 Overview of challenges	247
22.3 Water sector organisation and structure	247
22.4 Supply and demand details	248
22.5 Water production facilities	249
22.6 Waste water / sewage treatment facilities	249
22.7 Key performance indicators	249
22.8 Tariffs	250

22.9 Institutional and legal arrangements	250
22.10 Finance	250
22.11 Government strategy	250
22.12 Current and future projects	250
22.13 Predictions and forecast	251
<b>Chapter 23 – Yemen</b>	<b>253</b>
23.1 Introduction	253
23.2 Overview of challenges	253
23.3 Water sector organisation and structure	254
23.4 Supply and demand details	255
23.5 Water production facilities	256
23.6 Waste water / sewage treatment facilities	258
23.7 Key performance indicators	259
23.8 Tariffs	260
23.9 Institutional and legal arrangements	260
23.10 Finance	261
23.11 Government strategy	262
23.12 Current and future projects	263
23.13 Predictions and forecast	265
23.14 Predictions and forecast	266
<b>Chapter 24 - Company profiles</b>	<b>288</b>
24.1 Arabian Company for Water & Power International (ACWA Power International)	268
24.2 Acciona Agua	270
24.3 AES Arabia	271
24.4 Agbar	272
24.5 Amiantit (AmiWater)	273
24.6 aqualia	274
24.7 Befesa Agua	275
24.8 Besix	276
24.9 Biwater	278
24.10 Corodex Industries	279
24.11 Degremont	281
24.12 Doosan Heavy Industries	283
24.13 Fichtner	285
24.14 Fisia Italimpianti	287
24.15 Future Pipe	289
24.16 GdF Suez Energy International	290
24.17 GE Water & Process Technologies	292
24.18 Hyder Consulting	293
24.19 ILF Consulting Engineers	294
24.20 Kharafi National	296
24.21 Kuwait Engineering Office (KEO International)	297

---

24.22 Malakoff Corporation	298
24.23 Marubeni Corporation	299
24.24 Metito	301
24.25 Mitsui & Co.	303
24.26 Moya Bushnak	304
24.27 PB Power	305
24.28 SETE Energy Saudi for Industrial Projects Ltd. (SETE Energy)	307
24.29 Sogex Oman	309
24.30 Suez Environment	311
24.31 Sumitomo Corporation	313
24.32 Veolia Water	314

---

# Water Market Middle East 2010 - Figures

<b>Water Market Middle East 2010 – Introduction</b>	<b>1</b>
