

Global Water Markets 2017 Table of Contents

1. Outline/Overview

- 1.1. What is the water market?
- 1.2. Market drivers
 - 1.2.1.Scarcity and global warming
 - 1.2.2.Urbanisation and access to water
 - 1.2.3.Regulation
 - 1.2.4.Asset management
- 1.3. Water Finance
 - 1.3.1.Financing needs for the water sector
 - 1.3.2.Utility financing models
 - 1.3.3.International financing institutions
 - 1.3.4.Private finance
 - 1.3.5.Financing trends
- 1.4. Market participants
 - 1.4.1.Market structure and dynamics
 - 1.4.2.Top 100 Global Water Companies

2. Engineering & Contracting

- 2.1. Contracting models
 - 2.1.1.DBB
 - 2.1.2.DB/EPC
 - 2.1.3.DBO
 - 2.1.4.DBFO/BOT
- 2.2. Quality control and risk management
 - 2.2.1.Approaches to prequalification
 - 2.2.2.Bid scoring
- 2.3. Global trends in contracting
- 2.4. Market segments
- 2.5. Market forecast
- 2.6. Top 50 engineers and EPC contractors

3. Water & Wastewater Treatment

- 3.1. Treatment by sector (each sector has the following structure)
 - 3.1.1.Upstream Oil & Gas
 - 3.1.1.1. Market outline
 - 3.1.1.2. Industry challenges and drivers
 - 3.1.1.3. Treatment by application
 - 3.1.1.4. Treatment by technology systems
 - 3.1.1.5. Treatment by region
 - 3.1.1.6. Main suppliers
 - 3.1.2.Refining & Petrochemicals
 - 3.1.3.Power
 - 3.1.4.Mining
 - 3.1.5.Food & Beverage

3.1.6.Pulp & Paper

3.1.7.Pharmaceuticals

3.1.8.Microelectronics

3.1.9.Utilities

3.1.9.1. Drinking water

3.1.9.1.1. Drivers

3.1.9.1.2. Major players

3.1.9.1.3. Market forecast

3.1.9.2. Seawater/brackish water desalination

3.1.9.2.1. Desalination economies

3.1.9.2.2. Thermal vs membranes

3.1.9.2.3. Market drivers

3.1.9.2.4. Major players

3.1.9.2.5. Market forecast

3.1.9.3. Wastewater (inc. sludge management and wastewater reuse)

3.1.9.3.1. Drivers

3.1.9.3.2. Wastewater and sludge economics

3.1.9.3.3. Water reuse economics

3.1.9.3.4. Major players

3.1.9.3.5. Market forecast

3.2. Treatment by technology system (each technology system section has the following structure)

3.2.1.Oil/water separation

3.2.1.1. Key market drivers and restraints

3.2.1.2. Technology subsystems

3.2.1.3. Main players

3.2.1.4. Market forecast by sector, application and region

3.2.2.Suspended solids removal

3.2.3.Dissolved solids removal

3.2.4.Biological treatment

3.2.5.Disinfection

3.2.6.Sludge management

3.3. Water treatment equipment

3.3.1.High pressure membranes

3.3.1.1. Market trends

3.3.1.2. Major players

3.3.1.3. Market forecast

3.3.2.Low pressure membranes

3.3.3.Thermal desalination equipment

4. Networks & Environment

4.1. Networks

4.1.1.Asset Management

4.1.1.1. Economics

4.1.1.2. Unaccounted for water

4.1.1.3. Approaches to asset management

- 4.1.1.4. Market Drivers
 - 4.1.1.5. Smart Water
 - 4.1.1.5.1. Leakage management
 - 4.1.1.5.2. Smart meters/customer services
 - 4.1.1.5.3. Water quality management
 - 4.1.1.5.4. Network optimisation
 - 4.1.1.6. Market participants
 - 4.1.1.7. Market forecast
- 4.1.2. Supply expansion
 - 4.1.2.1. Market outline
 - 4.1.2.2. Market drivers
 - 4.1.2.3. Market forecast
- 4.2. Water resources and environment
 - 4.2.1. Storage
 - 4.2.2. Groundwater development
 - 4.2.3. Water transfer
 - 4.2.4. Watershed protection
 - 4.2.5. Market forecast
- 5. Equipment Markets
 - 5.1. Pipes
 - 5.1.1. Pipeline materials and costs
 - 5.1.2. Major suppliers
 - 5.1.3. Market forecast
 - 5.2. Pumps
 - 5.2.1. Types of pumps
 - 5.2.2. Major suppliers
 - 5.3. Market forecast
 - 5.4. Valves
 - 5.4.1. Types of valves
 - 5.4.2. Major suppliers
- 6. Market forecast
- 7. Chemicals & Consumables
 - 7.1. Chemicals
 - 7.1.1. Main chemical types
 - 7.1.2. Commodity vs specialty
 - 7.1.3. Industrial and Municipal markets
 - 7.1.4. Top 20 chemical suppliers by type and size
 - 7.1.5. Market forecast
 - 7.2. Consumables & Service
 - 7.2.1. IX Resins
 - 7.2.2. Activated carbon
 - 7.2.3. Filters
 - 7.2.4. Major suppliers
 - 7.2.5. Market forecast

8. Public private partnerships and industrial outsourcing

- 8.1. PPP Models
- 8.2. Investor-owned utilities
 - 8.2.1. Market dynamics
 - 8.2.2. Investment trends and the secondary market
 - 8.2.3. Top 20 investor owned utilities
 - 8.2.4. Market forecast
- 8.3. Contract operations, concessions and affermage
 - 8.3.1. Models
 - 8.3.2. Market dynamics
 - 8.3.3. Top 20 private operators
 - 8.3.4. Market forecast
- 8.4. Plant operations
 - 8.4.1. DBO and stand alone operations contracts
 - 8.4.2. Market forecast
- 8.5. BOT and variations
 - 8.5.1. Asset finance models
 - 8.5.2. Market dynamics
 - 8.5.3. Top 20 BOT developers
 - 8.5.4. Market forecast
- 8.6. Management and performance contracts
 - 8.6.1. Models
 - 8.6.2. Market forecast
- 8.7. Industrial outsourcing
 - 8.7.1. Outsourced operations
 - 8.7.2. BOT contracts
 - 8.7.3. Mobile water
 - 8.7.4. Oil & Gas Water Management
 - 8.7.5. Market forecast

9. Country Profiles

- 9.1 Top market opportunities
- 9.2 Sector structure and regulation
 - 9.2.1 Water sector regulatory structure
 - 9.2.2 Water sector funding organisations
 - 9.2.3 Regulations applicable to the water sector
- 9.3 Water resources
 - 9.3.1 Overall water risk
 - 9.3.2 Water resources
 - 9.3.3 Water withdrawals by sector, 2010-2030
 - 9.3.4 Desalination
 - 9.3.5 Water reuse
 - 9.3.6 Water transfer
 - 9.3.7 Groundwater protection
 - 9.3.8 Reservoirs and storage

- 9.3.9 Demand management
- 9.4 Utility sector
 - 9.4.1 Utility sector strategies and investment planning
 - 9.4.2 Utility sector structure and performance
 - 9.4.2.1 Utility market structure
 - 9.4.2.2 Water and wastewater utilities serving greater than 300,000 people
 - 9.4.2.3 Utility service performance
 - 9.4.2.4 Water supply indicators
 - 9.4.2.5 Wastewater indicators
 - 9.4.3 Utility infrastructure
 - 9.4.3.1 Major water treatment plants
 - 9.4.3.2 Wastewater treatment plants by level of treatment
 - 9.4.3.3 Major wastewater treatment plants
 - 9.4.3.4 Major utility and public sector desalination plants
 - 9.4.3.5 Major water reuse plants
 - 9.4.3.6 Procurement models used
 - 9.4.4 Utility funding
 - 9.4.4.1 Utility water and wastewater tariffs in selected major cities, 2015
 - 9.4.4.2 Sources of utility funding
 - 9.4.4.3 Sources of debt used to fund utility investments
 - 9.4.4.4 Overseas development assistance for the water and sanitation sector, 2008-2014
 - 9.4.5 Private sector participation
 - 9.4.5.1 Models of private sector participation
 - 9.4.6 Current and future projects
 - 9.4.6.1 Future utility investment projects
- 9.5 Industrial water
 - 9.5.1 Industrial water withdrawals by sector
 - 9.5.2 Market significance
- 9.6 Market participants
- 9.7 Market forecast
